TO : All Insurance and Reinsurance Companies, Insurance and Reinsurance Brokers, Mutual Benefit Associations, Trusts for Charitable Uses, Pre-Need Companies, Health Maintenance Organizations and the Public

SUBJECT : Newspaper Publication Requirement

WHEREAS, it has been observed that in compliance with publication requirements from the Insurance Commission, important notices are being published in minor newspapers and tabloids, to the detriment of the insuring public who are not properly informed.

WHEREAS, publication in minor newspapers defeats the objective of disseminating announcements and/or important notices to a wider relevant audience as required by the Insurance Commission.

NOW THEREFORE, in order to effectively disseminate important notices and/or information to the general and insuring public, it is hereby ordered that:

1. All publications required by this Commission shall be mandatorily published in any of the top three (3) MAJOR
BROADSHEET NEWSPAPERS circulated nationwide, as determined by the current and prevailing statistical data available.

2. Notwithstanding the foregoing, entities and/or persons required by the Commission to publish announcements and/or notices may, at their option, cause another publication in other newspapers and tabloids of their preference, in addition to the foregoing minimum requirement.

3. In addition, publication of said announcements and/or notices shall not be smaller than 1/16 page of the newspaper, with a font size of at least 8 pts., depending on the content of the announcement/notice, and in readable font style.

5. The major broadsheet newspapers enumerated herein may change in accordance with the latest available statistical data.

6. Hence, all subsequent publications required by this Commission, including all internal Memorandum Circulars of the various divisions of the Insurance Commission requiring publications in newspapers, shall conform to the provisions of this circular letter, unless otherwise ordered by the Insurance Commissioner.

For strict compliance.
