PRESS RELEASE
26 October 2017

INSURANCE COMMISSION LAUDED FOR COMPLIANCE WITH INTERNATIONAL QUALITY STANDARDS

The Insurance Commission was awarded a Certificate of Recognition by the Government Quality Management Committee for its successful efforts to adhere to international quality standards, particularly with the ISO 9001:2008 requirements.

The recognition was awarded to the Insurance Commission during the 5th Recognition Ceremony for Government Organization with ISO 9001:2008 Quality Management System Certification at the DAP Conference Center, Tagaytay City on 11 October 2017.

Insurance Commissioner Dennis B. Funa said that, "We, at the Insurance Commission, are very honored to receive such recognition as this serves as a testament to the efforts of the Commission to strive harder in the delivery of quality services to the public and in the regulation and supervision of insurance and pre-need industries."

Under Executive Order No. 605, series of 2007, all departments of the Executive branch are directed to adopt the ISO 9001:2008 Quality Management Systems as part of the implementation of a government-wide quality management program.

The Government Quality Management Committee is composed of the Department of Budget and Management Secretary Benjamin E. Diokno, Department of Trade and Industry Secretary Ramon L. Lopez, Department of Interior Local Government Officer-in-Charge Catalino S. Cuy, Internal Audit Service-Office of the President Deputy Executive Secretary Alberto A. Bernardo and Development Academy of the Philippines President and Chief Executive Officer Elba S. Cruz.

The Insurance Commission was conferred the ISO 9001:2008 Certification by the Anglo Japanese American (AJA) Registrars on 04 May 2016 after a thorough assessment of the IC's Quality Management System.

The Insurance Commission sought the ISO Certification to ensure that its management system and processes are of international standards and best practices.

The Quality Management System of the Insurance Commission covers all provisions of insurance and pre-need regulatory services such as activities and processes related to licensing, monitoring, approval, examination, and legal proceedings.

“The Insurance Commission shall remain true to its commitment to provide the highest standard of honesty and transparency in the fulfilment of its duties and services and to sustain the highest standards and best practices in regulation and supervision over our regulated entities in order to safeguard the rights and interest of the public,” said Commissioner Funa.
